Course

The course is in the outskirts of the town Säter and is very compact and built up around a hill which the riders will need pass several times which gives roughly 120 meters of climbing each lap.

One lap is 5 km with good possibilities to see the riders more than one time during a lap. Start and finish outside the race HQ.

It's a mix of wider trails and single tracks, some of them are handmade for MTB with different technical parts like drops and stone sections.
